liscuss the Somme offensive, which be- ing days of the war. can on July 1, from the point of view or assigning to each of the attacking parpression that the offensive has been almost purely a British effort.

The offensive must be closely attached France but to anticipate this offensive

prevent it being realized. hen the attack on Verdun was made German high command knew that the English army was not ready, either ocal preparations for an attack existed

When the assault on Verdun began ermany divided her forces in France to two divisions, one intended to carry erdun and the other to meet any Eng lish attack. The magnificent defence of Verdun gave the Allics nearly nineteen weeks for preparation and wrecked the remains to find that the French were sound after all le to partake in the Somme offensive. In less than participation greatly due to the methadopted in holding Verdun. The each command instituted a regular ation in the troops sent to Verdun. changing the armies successively and on anging the armies successively and not allowing one to become exhausted, withdrawing each regularly and nineg up the gaps from its reserves. What this meant, when the poverty of means of access to Verdun is remembered, can

French More Experiences.

That the French advance over the first five inless was so much more rapid than that of the English was not entirely due to the latter having more and better German troops ngaigst them, but to the superior way the French utilized the superior way the first find and shows the difficulty of beneating by other people's experience, the new British army having to learn for itself that to advance without ensuring that no enemy was left behind, concealed in deep dugouts with a few machine gams, was merely a waste of lives.

An offensive against an enemy in trenches is in principle formula. Heavy artillery fire to destroy the barbed wire entanglements and reduce the trenches to wreckage. Then the artillery fire is lengthened and the linfantry can move up to occupy the positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians from their positions at the point of the bastrians and advanced in the Lallans as thempted a that has assumption was the cast and hoisted the litilian described and the court week which shelled to a man with cold steel. In least then they were killed to a man with cold steel. In least they had wavened that the Austrians as the point of the St. Then they all the Austrians as the point of the cast was the object. This assumption was the constraint of the Lallans attempted a point of the city. Although the occupation of the city. Although the occupation of the city. Although the occupation of the city. The Austrians fed on August 6 whe

the infantry can move up to occupy the positions. Then comes the question if counter attacks can be repelled until the artillery is moved up to begin the same operation over again. In this way a seriod of flerce activity is followed al-

apt to argue that if so much spense is required to drive the Germans Strangely enough back five wiles it will be a material imseemed to have a particular target, possibility to continue such operations either an isolated farmhouse or a clump until the are driven clear out of the country. But this line of argument overlooks many important factors. Fresh gumers to destroy completely each tartenches may be dust by the enemy beginned those from which it has been driven, to discover what the Italians were first but defence trenches are not enough, at. The Italians destroyed carefully and but defence trenches for miles are systematically every building used by them the country is an expense of them. Shouting "We are Italians Long live Italy."

### GERMANS BITTER IN THEIR SURGERY MAKES BIG HATRED OF THE BRITISH

Asquith and Grey Held Responsible by Teuton Newspapers for War-Say Britons Win Battles With Their Mouths.

Special Correspondence to THE SON. Special Correspondence to The Scs.

LONDON, Aug. 20.—With the renewal of the combined offensive of the British, French, Russian and Italian troops on their respective fronts, the theatre of action in the great war is shifted almost daily. Regardless, however, of the actual scene of the latest onslaught the Germans seem to have concentrated all their anger and hatred against the British.

Successes or reverses in the south west or east are all made the occasion of new outbursts against Great Britain in the German press, and practically all the editorial writers in the German newapapers agree that the British are to blame for whatever happens, While Viscount Grey is still held re-sponsible by the Germans for the en-

"With Herr Asquith there is no longer any question of 'fair play' for the devel-opment of all peaceful forces. What he desires is the maintenance of the English economic system in its full great-ness, and everybody who menaces that, even though it be by the most peaceful means, must be removed from the em-pire of civilization. It is really the ex-istence of Germany now and in the future that is at stake, and woe to him who, if Germany were defeated in this right, were afterward to dare to follow Germany's example in economic competition with England. We can only apply to Herr Asquith and his followers the phrase of Voltaire, 'Ecrasez l'in-

### Admits Chance of Defeat.

These ideas, interesting if not novel, and many others which cannot yet be printed, I heard expressed during a three lays trip to the Somine front, in which the triple of the systems, as trip to the Somine front, in which the triple of the systems army felt any soreness at the way the land and the latter that the cannot yet be printed. I heard expressed during a three lays trip to the Somine front, in which the triple of the systems army felt any soreness at the way the latter that the caused by the bombardment damage caused by the bombardment da army felt any screness at the way the hind the Austrian lines an Italian flowers spies or Austrian officers in distinct that former offensive and the consequent ing two bombthrowers besides the pilot, them out and denounced them. result that neutral countries had become pressed with the belief that it was a purely British operation. Some feeling of injustice may exist among military men not at the front who have more leisure to occupy themselves with such a matter, but the active army Ceasing roar of big guns, the circle of vent forming a sufficient temptation to dense smoke around you and the separate columns of smoke that rise as a whistle of shell reached our ears, so with such a matter, but the active army It is pleasant to be told to find a War Department's safety record seemed with such a matter, but the active army simply does not pay any attention to such considerations and is satisfied with the knowledge that the allied armies are working torsther on a plan of campaign which the French heatiquarters have decided usen. It is recognized that the new policy of the British authorities in allowing five chosen correspondents to report from their front, while the French authorities front, while the French authorities finallowing five chosen correspondents to report from their front, while the French authorities allow nothing of a similar kind, accounts for this misconception. Amtens is a pleasing town to visit under war conditions. It received a visit from the German when the war was a month old, it paid the fine amprecia upon the feeling that the new policy of shrappel make a dent in it. It is pleasant to receive the latest in graduality of shrappel make a dent in it. It is pleasant to receive the latest in graduality of shrappel make a dent in it.
